TREASURE QUEST

Following the Footsteps of Moses

explores four stories from the life of Moses. Each day children will engage five activities that dig into the truth:

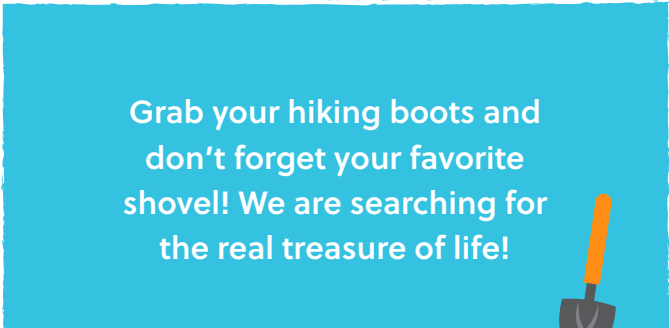

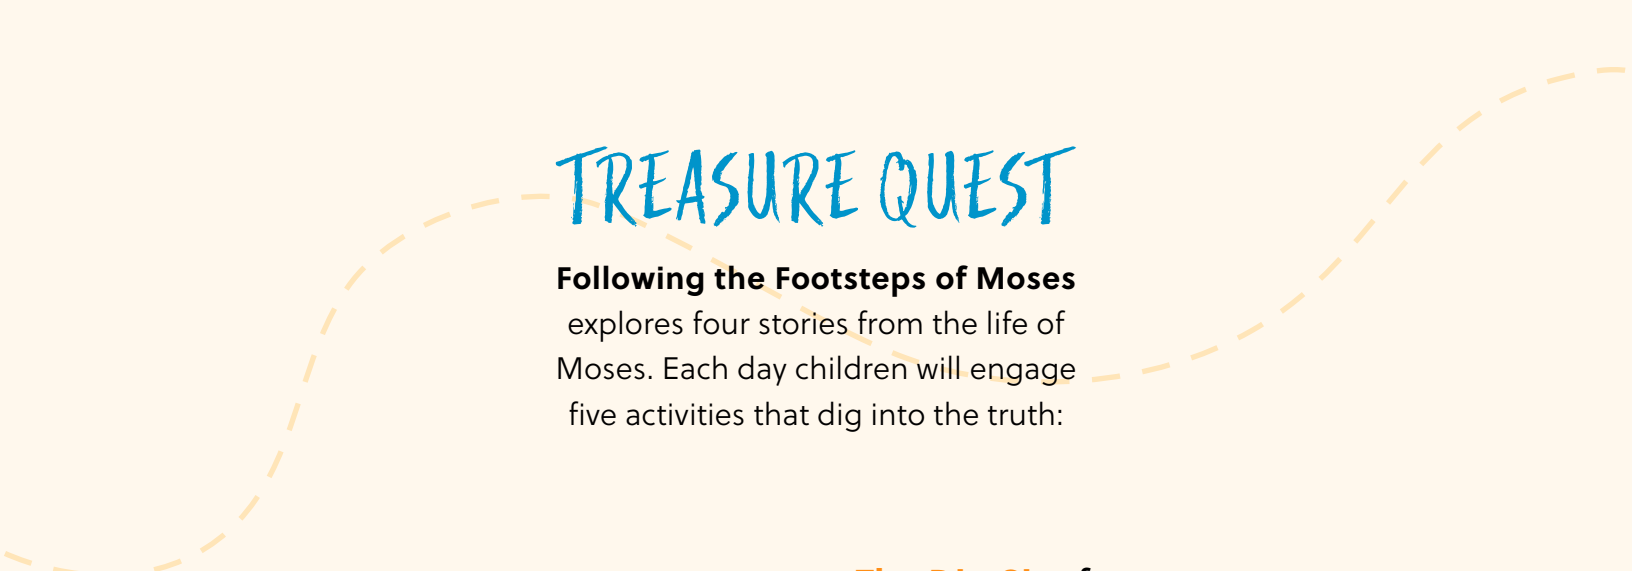

The Discovery Station provides an interactive Bible story experience children remember.

Scout's Canteen creatively satisfies children's appetite and quenches their thirst for truth with a daily Memory Gem.

The Dig Site features archeological methods to excavate the treasure of God's Word.

Professor Burrows' Artifacts applies the truth through hands-on crafts with a cultural context.

Field Games actively reinforce the daily Treasure Point and the Memory Gem.

Grab your hiking boots and don't forget your favorite shovel! We are searching for the real treasure of life!
